International Journal of Government Auditing

Index

1974-1991

Volumes 1-18

This index lists articles and news items published in the *International Journal of Government Auditing* from January 1974 through October 1991. This type of index is known as a “key word out of context” index, which means that entries are listed based on the key words in the title of each entry. Thus, entries may be listed under more than one key word. For example, an article entitled “Flowcharting for Government Auditors” appears three times in the index under these key words: flowcharting, government, and auditors.

The *Journal* is published quarterly (January, April, July, October) in Arabic, English, French, German and Spanish, and is the official publication of the International Organization of Supreme Audit Institutions (INTOSAI). The *Journal* is dedicated to the advancement of government auditing and financial management, and is pleased to publish this index in support of this goal. For further information about the *Journal*, contact Editorial Offices of the *International Journal of Government Auditing*, U.S. General Accounting Office, Room 7806, 441 G Street NW, Washington, D.C. 20548, U.S.A. (Phone: 202-275-4707. Facsimile: 202-275-4021).
