The Honorable John Conyers
Chairman, Committee on Government
Operations
House of Representatives

Dear Mr. Chairman:

As you requested on February 2, 1990, we are providing information on vacancies in statutory inspector general positions. Specifically, we gathered information on which inspector general positions are currently vacant and how long they have been vacant. In addition, we identified the immediate previous position held by current inspectors general.

As of February 21, 1990, there were 8 vacancies among the 26 statutory inspectors general whom the President must appoint, with Senate confirmation. The President had nominated individuals to fill three of these vacancies. In addition, there were 2 vacancies among the 32 inspectors general who are appointed by entity heads pursuant to requirements of section 8E of the Inspector General Act of 1978, as amended.

The appendixes provide details on (1) which agencies and entities have vacant inspector general positions, (2) how long the positions have been vacant, and (3) what position each of the incumbent inspectors general held prior to being appointed. Appendix I provides this information for presidentially appointed inspector general positions. Appendix II provides the same data for inspector general positions to be filled by entity heads.

Unless you publicly announce the contents of this report earlier, we will not distribute it further until 30 days from its date. At that time, we will send copies to the
